About AEP Texas

AEP Texas, a unit of American Electric Power, delivers electricity to over one million electric consumers, businesses and industries in south and west Texas. AEP Texas provides regulated energy delivery service to consumers, regardless of which Retail Electric Provider (REP) they choose. The region headquarters is in Corpus Christi.

AEP Texas delivers electricity on behalf of the REPs. AEP Texas also builds new powerlines, restores service following outages and uses advanced meters to record electric use for REPs throughout its service territory. The company also connects or disconnects service upon the orders of the REPs.
